Why Do 5G Networks Still Experience Service Disruptions? While global communication base station deployments have surged by 38% since 2021, service interruptions still cost operators ?

The mobile station transmits a notification message to the base station after detecting abnormal power down of the mobile station. The base station determines that abnormal power down ?

The attack of pseudo base station is one of the security problems on mobile terminals, which affects normal communications and disguises as legit users for illegal purposes. To prevent ?

Sep 1, 2024 Fake base stations comprise a critical security issue in mobile networking. A fake base station exploits vulnerabilities in the broadcast message announcing a base station's ?

Jun 2, 2023 In this paper, we propose a simple logistic method based on two-parameter sets of geology and building structure for the failure prediction of the base stations in post-earthquake.
