

What drives energy storage project development?

Globally, energy storage project development is increasingly driven by the utility-scale segment, with mandates and targeted auctions driving gigawatt-hour projects in markets like China, Saudi Arabia, South Africa, Australia and Chile.

Is the energy storage industry achieving scaled development?

With the performance of lithium batteries significantly improving over the past few years and the iteration of multiple technology routes accelerating, the energy storage industry has achieved scaled development, said Chen Haisheng, chairman of China Energy Storage Alliance.

Will the energy storage industry thrive in the next stage?

The energy storage industry is going through a critical period of transition from the early commercial stage to development on a large scale. Whether it can thrive in the next stage depends on its economics.

Is the energy storage industry growing fast?

According to the "Energy Storage Industry Research White Paper 2025" released during the recently concluded 13th Energy Storage International Conference and Expo held in Beijing, the new-type energy storage sector has sustained high-speed growth throughout the 14th Five-Year Plan (2021-25) period.

Why are energy storage technologies important?

They are also strategically important for international competition. KPMG China and the Electric Transportation & Energy Storage Association of the China Electricity Council (CEC) released the New Energy Storage Technologies Empower Energy Transition report at the 2023 China International Energy Storage Conference.

How will China's new-energy storage industry grow by 2027?

Photo: VCG China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, enhance innovation and competitiveness, and achieve high-end, intelligent and green industry growth.

We will analyze the importance of developing the new energy storage industry. Finally, to promote the

legal development of new energy storage projects in the new era, we will propose two ?

Jan 24, 2025 China's new energy storage sector has seen a rapid growth in 2024, with installed capacity surpassing 70 million kilowatts, said an official with the National Energy ?

Power generation forecast for different energy sources worldwide, 1000TWhElectricalMechanical2. Energy storage can have a major impact on generators, grids and end usersIndependent energy storage stations are a rising trend among generators and grids??????Seed and Angel4. Opportunities and challenges for the energy storage industrysegments and targets.Yongdong LiuKPMG ChinaMindy DuMay ZhouWu WeiAssociationMichelle LiangAbout CEC Electric Transportation & Energy Storage AssociationFor a list of KPMG China offices, please scan the QR code or visit our website:Liquid fuels Natural gas Coal Nuclear Renewables (incl. hydroelectric) Source: EIA, Statista, KPMG analysis Depending on how energy is stored, storage technologies can be broadly divided into the following three categories: thermal, electrical and hydrogen (ammonia). The electrical category is further divided into electrochemical, mechanical and el...See more on assets.kpmg ???New energy-storage industry booms amid China's green driveMay 24, 2024 At the beginning of 2024, the National Energy Administration released a list of 56 new energy-storage pilot projects. About 30 percent of the projects belong to Lithium-ion ?

Feb 17, 2025 China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, ?

Jul 28, 2025 10 cutting-edge innovations redefining energy storage solutions From iron-air batteries to molten salt storage, a new wave of energy storage innovation is unlocking long ?

Jan 26, 2025 China's new energy storage sector has seen a rapid growth in 2024, with installed capacity surpassing 70 million kilowatts, said an official with the National Energy ?

May 7, 2025 Newly commissioned new energy storage projects in 2024 reached an impressive scale of 43.7 GW, representing a year-on-year growth rate of 103 percent and accounting for ?

Sep 2, 2025 China continued its high-growth energy storage market expansion in July 2025, with 1,556 new energy storage-related projects filed for registration, according to the Energy ?

Support research and development of key technologies for new-type energy storage systems. Carry out pilot projects using new-type energy storage systems in different scenarios. Develop ?

New energy storage industry projects

May 7, 2025 A technician monitors energy storage equipment in Yibin, Sichuan province, in December.
Zhuang Geer / for China Daily Leveraging its dominant position in electric vehicles, ?

May 24, 2024 At the beginning of 2024, the National Energy Administration released a list of 56 new energy-storage pilot projects. About 30 percent of the projects belong to Lithium-ion ?

Jun 18, 2025 The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ?

Oct 27, 2025 01 Establish a zero-carbon industrial park Building a resilient microgrid to ensure stable renewable energy supply Upon completion, it will become China's first grid-forming wind ?

Nov 6, 2025 "New energy storage plays an essential regulatory role in the new power system, significantly promoting the development and consumption of renewable energy," Bian said. ?

Feb 17, 2025 Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of ?

Nov 6, 2024 The global new energy storage market has also been expanding rapidly in recent years, with a 99.6 percent year-on-year growth and 91.3 GW in cumulative installed capacity in ?
